EVERY TRIP STARTS WALKING OR ROLLING

We are a team of dedicated experts creating lasting solutions for people walking, rolling, and biking. We are passionate in our belief that everyone must have a safe, convenient, and enjoyable experience traveling in their communities and are committed to supporting active modes of transportation. Our experience will help you meet future mobility needs that require thinking **beyond traditional planning and engineering**. Spanning statewide policies to corridor plans, localized studies and on-the-ground design, we strive to produce creative solutions for complex needs.

Let's work together! The more active we collectively are, the healthier, more resilient, and equitable we can be.

What we bring:

- Active Transportation Planning
- Pedestrian and Bicycle Design
- Safe Routes to School
- Urban Design/Placemaking
- Pedestrian Crossing Guidance
- Policy Development
- Transit Planning
- Trail Planning and Design
- Transportation Demand Management
- Future Mobility Planning
- Vision Zero/Safe Systems Planning
- Research and Training
- Funding and Grants
- Equitable Community Engagement
